SOMETHING YOU CAN DO FOR 5CLIR...
Join a committee; we encourage you to get involved!

The Five College Learning in Retirement Program depends on its members to do just about everything that is needed to provide an interesting, quality program for retired people in the Pioneer Valley. We organize seminars, workshops, trips, special programs, meetings, and events. This takes a lot of creative effort by members, and it is done through standing and *ad hoc* committees.

Appointments to committee membership are for three-year terms. New appointments are made each year to ensure a constant supply of new people and new ideas. This rotation offers a wonderful opportunity for all, including new and recent members, to get creatively involved and to get to know other members better. Our membership year is from July 1 to the next June 30. Each year we ask members to indicate what committee(s) they would volunteer to serve on. This list is used to select new committee members, as openings occur during the year.

If you have relevant experience, or would simply like to get involved, please do step forward!
If you are interested in serving on a committee, fill out this form and submit it to the 5CLIR office.

In the blanks below, please indicate which committees you are interested in serving on:

1. _____ **Curriculum**: Receives and reviews proposals for seminars and workshops.

2. _____ **Finance**: Advises Council on dues, budget and related management issues.

3. _____ **Great Decisions**: Arranges for this series of programs on current events in the spring.

4. _____ **Member Events**: Plans and oversees three LIR events throughout the year: a pot-luck picnic in September, a new members coffee in February and a social event in April.

5. _____ **Public Relations/Publicity**: Works to promote awareness of 5CLIR in our communities and recruits new members.

6. _____ **Special Programs**: Receives, considers, and schedules proposed study groups, lectures, and events for the fall & spring semesters.

7. _____ **Winter/Summer Programs**: Plans local & distant activities to provide interesting experiences for members between semesters.

8. _____ **Technology Committee**: Determines what areas of digital and audio-visual technology are not well understood by members and then provides the digital and audio-visual technological help and instruction through workshops and other means.
